At Junior Achievement of Southern Nevada our mission is to **inspire** and **prepare** young people to **succeed** in a global economy. It's not an easy task, but it's the kind of challenge that we take on with creative energy, fervor and decisive action.

Why is this important? It's important because many of the students in our community do not understand the connection between learning and earning and how to master basic financial principals such as saving, earning and entrepreneurship.

We've been able to partner with the business community, educators and volunteers to inspire over 20,000 students in 2016-2017 to **dream big** and reach their potential.
